# Instructions for Completing Form NJ-8453

## Name and Address

Place the peel-off label from the front of your NJ-1040 packet in the name and address section at the top of the form. Correct the label where errors occur. Any changes to this label should agree with the data transmitted with the electronic return. If you have no label, print or type your name (last name first), complete address and zip code in the space provided. Also include your spouse's name if filing jointly. Your refund and next year's form will be sent to the address you provide.

If your legal residence and the address on the return differ, attach a statement of explanation to avoid a delay in processing.

## Social Security Number

Be sure to check the accuracy of the social security number(s) printed on the label. To correct an error, draw a line through the incorrect number and write the correct number above it.

Enter your social security number(s) in the space provided on the return if you do not have a label. If your filing status is Married, filing a joint return, remember to report both spouses' numbers in the order in which the names are listed on the electronic return.

## County/Municipality Code

Check the county/municipality code on your label (see example on page 16 of the NJ-1040-P). Make corrections to the code on the label. If you do not have a label, enter your four-digit code from the table on page 45 of the NJ-1040-P. This code identifies the county and municipality of your current residence. Make sure that the data listed here agrees with the data submitted with your electronic return.
